AGENCY CASE NO. 19M2019M08M00187  
LAB CASE NO. WVSP19-001398  
REQUEST NO. 0002

### SUPPLEMENTAL REPORT

#### REFERENCE:

Joseph R. Ziegler - Suspect  
Driving Under the Influence - 04/04/2019

#### LABORATORY SECTION:

Toxicology

#### EVIDENCE RECEIVED:

The following exhibits were received at the laboratory on 04/05/2019 via evidence locker and placed into secure storage:

**Item # 01.001:** One sealed gray top tube containing blood

**Item # 01.002:** One sealed gray top tube containing blood

#### EVIDENCE DISPOSITION:

To be returned.

#### EXAMINATION PERFORMED:

Toxicology Drug Analysis

#### METHODOLOGY:

Preliminary Drug Screening was performed by High Performance Liquid Chromatography/Tandem Mass Spectrometry (LC-MS/MS) for compounds in Panel 1, Panel 2, the Negative 2 Panel, and the THC/metabolite Panel.

Confirmatory Drug Analysis was performed by High Performance Liquid Chromatography/Tandem Mass Spectrometry (LC-MS/MS) for compounds in the THC/metabolite Panel.

Quantitative results are reported as Result  $\pm$  Uncertainty of Measurement (UM) at  $k=2$ , 95.45% Confidence Interval.

SUPPLEMENTAL REPORT

RESULTS AND OPINIONS:

Item # 01.001 contained  $1.88 \pm 0.28$  ng/ml THC and  $10.18 \pm 1.83$  ng/ml THC-COOH.

Based on thresholds established by the WVSP Toxicology Laboratory, screening of Item #01.001 did not reveal any positive findings of toxicological significance on Panel 1, Panel 2, or the Negative 2 Panel; therefore, no further testing was conducted on these panels.

Item # 01.002 was not analyzed.

Please refer to the attached WVSP Toxicology Drug Panel for a current list of compounds and reporting limits.
